Legislature, will not have reached the level of maturity and sensitivity to do that which it ought to do. So this matter is in your hands to determine how much further we'll go with it. But I hope you won't let the rejection of this very worthy effort that you're bringing to us dishearten you or deter you in any way from continuing to push for the people who need the help so much.

SENATOR SCHIMEK: Thank you, Senator Chambers. Senator Tyson, you are recognized to speak, followed by Senator Byars.

I think the only thing here is we're hurting maybe possibly Senator Wickersham's, as Chairman of the Revenue Committee, pride. I know where this bill is going to go. I hope that the body at some time will look at the...the similarities between mental illnesses, biological brain disorders as they are called, and physical illnesses. And I would like to have the stigma and the myth removed so that we could move forward as a body and come to some sort of agreement here. And I know the fate of the amendment. Yes, Senator Tyson, I'm very, very aware of this,
